

Judaic and Soncino Classics Libraries FAQ

To get rid of "Talmud (English)" or other existing books in the "Search Parameters" window:

- 1) click the "Select >>" button. A selection list will appear the lower right-hand part of the screen
- 2) In this list, click on the arrow next to "Talmud (English)" which will open a list of subdivisions
- 3) while holding down the "Control" key, left-click on each highlighted *sefer* (order) which will eliminate it -- and, finally, the entire English Talmud -- from the selected texts
- 4) repeat steps 1-3 for other existing books

This works in reverse (see next entry).

How to Select an Entire Work:

If you want to select an entire large work, such as the Talmud or Midrash Rabbah,

- 1) click the "Select >>" button,
- 2) click on the arrow to the left of "Talmud" (or "Midrash Rabbah", etc.) and,
- 3) while pressing down the Control key, click (highlight) each subdivision (*sefer*, book, etc.)
- 4) After all have been selected, the name of the larger work will appear in the selected texts window.

To Look Up a Particular Text (as opposed to performing a search):

- 1) click on the "Library" option on the toolbar.
